06/13/01	A00-06-032	Southern California Gas Company, for authority to implement a rate for peaking service as ordered by D.00-04-060
----------	------------	--

**Summary:** On June 8, 2001, Keith Rattie, Chief Operating Officer of Questar Southern Trails Pipeline Company (Questar), met with Cmmr. Lynch in Sacramento. Also present were Trina Horner, advisor to Cmmr. Lynch, Ned Greenwood, Project Manager, Allan Allred, Director of Marketing, Steve Baker of Aaron Read & Associates, lobbyist, and Michael Day of Goodin, MacBride, Squeri, Ritchie & Day, counsel, for Questar, and Thomas Beach, representing Watson Cogeneration Company. Written material (attached to the notice) was used. Rattie stated that Questar has received all required regulatory and environmental approvals and is ready for construction, save for the fact that customers cannot commit to firm contracts for service until the peaking rate case is resolved in a manner acceptable to the customers. Allred indicated that the potential customers for the project uniformly indicated that the RLS tariff and the proposed

Southern California Gas Company (SoCalGas) peaking rates were the most important factor in preventing customers from committing to Questar. Day stated that the Commission should not adopt the proposed decision (PD), which adopted the majority of the elements of the cost-based peaking rate proposal of SoCalGas. Day and Beach indicated that the PD should be replaced with an alternate which permitted interruptible peaking rates, assigned demand charges on a customer class basis instead of system-wide, and imposed demand charges on customers based on their usage on the system peak day. Day also stated that new customers should not be subject to the peaking rate. Day explained that Semptra Energy was engaged in multiple projects, which would effectively bypass the utility at the same time SoCalGas sought a peaking rate to prohibit other entities from engaging in bypass.
